

Equality Peer Review Projects 2013

Partnership projects coordinated by the FE Providers' Equality Network

Welcome to our overview of this year's equality peer review projects. Within this guide we have included a summary of each project along with key outcomes and learning points. An electronic copy is also available so you can take advantage of the hyperlinks. Our hope is that you will take ideas and inspiration from these projects.

What is peer review? Peer review is the evaluation of work or performance by other people in the same field in order to maintain or enhance the quality of the work or performance in that field. It is based on the concept that a wider group of participants will usually find more weaknesses and areas for potential improvement.

This project is coordinated by the FE Providers' Equality Network with funding and support from The Learning & Skills Improvement Service (LSIS).
